

CONTEGIACOMO AND ASSOCIATES - ARCHITECTS

Pilato Loft - 2009

Three bedrooms, four bathrooms and an office loft that maintained the character of the old machine shop. The client, an avid scuba diver wanted the ability to see and experience his 400 gallon salt water reef tank while cooking, bathing, sleeping, working or lounging and he wanted the project delivered quickly. In order to fast-track the project and ensure a quality renovation, the client hired Contegiacomo and Associates in a design build capacity as his Architect, Interior Designer, and Builder.
